## TITLE 30-MINERAL RESOURCES

## Chapter VIII—Coal Mines Administration, Department of the Interior

[CMAN Order 16]

APPENDIX TO PART 801—REGULATIONS FOR THE OPERATION OF COAL MINES UNDER GOVERNMENT CONTROL

SAFETY CONDITIONS AND PRACTICES

The Centralia disaster demonstrates that present procedures for safeguarding against explosion are inadequate.

Each operating manager is therefore hereby directed to make immediate review of safety conditions and practices at each mine operated by-him. He shall in this connection give detailed consideration to the report of the last Federal coal mine inspection and to the last report of a State inspection of his mine or mines. He shall also promptly consult with and obtain the views of the Union Mine Safety Committee, if any, at his mine or mines.

No mine shall operate for the production of coal on or after April 7, 1947, until the operating manager, or his chief operating representative at the mine, has forwarded to the Area Officer of the Coal Mines Administration a certificate in substantially the following form with respect to each mine:

I, \_\_\_\_\_, do hereby certify

1. I have reviewed the safety conditions and practices at the \_\_\_\_\_ mine and have considered the Federal and State inspection reports in regard thereto.

spection reports in regard thereto.

2. The safety-conditions and practices at the above mine are not, in my considered judgment, unduly hazardous and I find and determine that there is no imminent danger to the men working in such mine.

(Signed)

By special telegram and letter of this date I have directed that certain hazardous mines remain closed, until certain conditions are fulfilled. The certification with respect to any such mine must contain, in addition, the recommendation of the Mine Safety Committee at that mine that it be reopened, and the chairman or majority of that committee must also sign the certification. If there should be no Mine Safety Committee at the mine, the president of the

local union should be consulted and may act in the place of such committee.

Subchapter C—Motorboats, and Certain Vessels Propelled by Machinery Other Than by Steam More Than 65 Feet in Length

PART 24—GENERAL PROVISIONS MISCELLANEOUS AMENDMENTS

By virtue of the authority vested in me, the following amendments to the regulations are prescribed and shall become effective upon the date of publication of this document in the Federal Register.

It is hereby found that compliance with the notice, public rule making procedure, and effective date requirements of the Administrative Procedure Act (Pub. Law 404, 79th Cong., 60 Stat. 238) is unnecessary.

These amendments make editorial changes in the regulations in accordance with Reorganization Plan No. 3 of 1946 and state the purpose for motorboat regulations.

1. Section 24.1 is amended to read as follows:

§ 24.1 Basis and purpose of regulations. By virtue of the authority vested in the Commandant of the Coast Guard under section 101 of the Reorganization Plan No. 3 of 1946 (11 F. R. 7875) and the act of April 25, 1940 (54 Stat. 163–167; 46 U. S. C. 526–526t) the regulations in Parts 24 to 28, inclusive, are prescribed to provide minimum safety requirements for both motorboats and certain motor vessels while operating on the navigable waters of the United States in accordance with the intent of the statute and to obtain its correct and uniform administration.

2. Section 24.2 Application is amended in paragraph (e) by changing the phrase "a board of local inspectors" to "the Coast Guard."

## TITLE 47—TELECOMMUNI-CATION

## Chapter I—Federal Communications Commission

PART 3—RADIO BROADCAST SERVICES
ANNOUNCEMENT OF MECHANICAL REPRODUCTIONS

APRIL 7, 1947.

At a meeting of the Federal Communications Commission held in its offices in Washington, D. C., on March 20, 1947;

The Commission having before it the requests of American Broadcasting Com-

pany Inc., and Mutual Broadcasting System, Inc., for a waiver of the requirements of § 3.407 of the Commission's rules and regulations, during the period in which daylight saving time will be in effect, with respect to programs transcribed and broadcast on a delayed basis because of the time differential resulting from the adoption of daylight saving time in some areas;

It appearing, that during the time daylight saving time is effective, the above mentioned network organizations transcribe programs originating in areas on daylight saving time for rebroadcast one hour later in areas where standard time is effective, in order that listeners may continue to receive the programs at the same clock hour at which they received them prior to the effective date of daylight saving time in the place of origin; and

It further appearing, that repeated announcements that such programs are being presented as delayed broadcasts by means of transcription would be burdensome, both to broadcasters and the listening public, and unnecessary if an appropriate announcement were made at least once daily, as has been done under the provisions of waivers hitherto granted in previous years; and

It further appearing, that the promulgation of an amendment to § 3.407 of the rules and regulations would be a more expedient method of handling the situation than the granting of separate, annual waivers of the requirements of said section; and

It further appearing, that, for the reasons set out above, notice of proposed rule making and public procedure thereon, in accordance with section 4 of the Administrative Procedure Act, is unnecessary;

It is ordered, That §3.407 of the Commission's rules and regulations be, and it is hereby, amended by adding a footnote at the end of the first paragraph thereof to read as follows:

During the annual periods in which day-light saving time will be effective, the requirements of this cection are waived, with respect to network programs transcribed and rebroadcast one hour later because of the time differential resulting from the adoption of daylight saving time in some areas, upon the following conditions: The waiver is not to be applicable when an individual station makes an off-the-line recording, but is to be applicable only when the off-the-line recording is made by the network itself at one of its key stations, and is for breadcast one hour later by those stations which operate on standard time. Furthermore, each station which broadcasts network programs one hour later in accordance with this walver shall make an appropriate announcement at least once each day between the hours of 10:00 a. m. and 10:00 p. m., stating that come or all of the network programs which are broadcast by that station are delayed broadeasts by means of transcription. A network organization taking advantage of this walver should so advice the Commission.

It is further ordered, That, inasmuch as this order relieves a restriction, it shall take effect immediately.

PART 3—RADIO BEOADCAST SERVICES
CLASS A STATIONS

APRIL 4, 1947.

At a session of the Federal Communcations Commission held at its offices in Washington, D. C., on the 3d day of April 1947;

It appearing, that the demand for Class A FM stations in certain areas makes it necessary to provide a procedure whereby an equitable distribution and maximum utilization of Class A channels can be achieved; and

It appearing, that a policy of reserving for a period of time certain Class A channels appears to be desirable for the above purpose; and

It appearing, that general notice of proposed rule making to effect a reservation of Class A channels has been published in accordance with section 4 (a) of the Administrative Procedure Act under date of January 16, 1947; and

It appearing, that no statements or

briefs have been submitted;

It is ordered, That a new paragraph (d) be added to § 3.203 (11 F. R. 7745) of Part 3, Subpart B of the Commission's rules and regulations as follows:

§ 3.20 Class A stations. \* \* \*

(d) No assignments will be made on Channels 297, 298, 299 and 300 until July 1, 1947.

It is further ordered, That § 3.203 (d) shall become effective immediately. The public interest will be served by having § 3.203 (d) become effective immediately since such an action will provide for the maximum benefits of the proposed reservation of Class A FM channels.

[Project No. 16]

NIAGARA FALLS POWER CO.

ORDER SETTING ORAL ARGUMENT ON VALID-ITY OF CLAIMED WATER RIGHTS AND ON APPLICATION FOR AMENDMENT OF LI-CENSE

Upon application filed February 17, as supplemented March 20, 1947, by The Niagara Falls Power Company, licensee, for Project No. 16 located along the Niagara River at Niagara Falls, New York, for amendment of the license to include certain alleged water rights to be acquired from Buffalo Niagara Electric Corporation;

(1) The licensee proposes to acquire from Buffalo Niagara Electric Corporation (Buffalo Niagara) certain alleged rights to take and withdraw from the Hydraulic Basin of the licensee operated as a part of Project No. 16 and to use under a head not exceeding 100 feet 262.6 cubic feet per second of water and to pay therefor the amount of \$728,-415.48 which it states is the original cost of said water rights to Nizgara Lockport and Onfario Power Company (Niagara-Lockport) predecessor to Buffalo Niagara; and the licensee then requests that paragraph 13 of the license be changed to eliminate any reference to said water rights.

(2) Paragraph 13 of the license reads as follows:

Such taking over of the project shall also be subject I to the rights, if any, of Pettebone-Cataract Paper Company and Cataract City Milling Company to withdraw water at a rate not exceeding 265 cubic feet per second from the Hydraulic canal or basin of licensee, and I to the rights, if any, of International Paper Company.

and the licensee seeks to eliminate therefrom the language in brackets.

- (3) In 1925 certain lands and buildings and the water rights in question were sold by Pettebone-Cataract Paper Company and Cataract City Milling Company to Niagara-Lockport which in turn by a deed and agreement dated May 1, 1925 transferred all of the property except the water rights to the licensee. Article I of the deed and agreement conveys the lands and buildings, subject to the reservation of certain easements set out in another article. Article III of the deed and agreement provides that in consideration of the lease to the licensee of 262.6 c. f. s. of water for which water rights were claimed, the licensee is to deliver to Niagara-Lockport at Echota substation in Niagara Falls 2,000 kilowatts of electric energy at a price of \$6.70 per kilowatt per annum: this amount of energy being the equivalent of the energy which could be produced by 262.6 c. f. s. of water through 100 feet of head, the use which was being made by the Paper Milling companies prior to 1925. The price of \$6.70 is subject to readjustment after 15 years and at 5-year intervals there-
- (4) The Niagara River is an international boundary stream and a navigable water of the United States and the right to divert water therefrom and to use the water so diverted cannot be acquired without the authority of the United States, and no such authority is claimed for or has been granted to Buffalo-Niagara or its predecessors in interest for the use of the 262.6 c. f. s. in question, at least since June 10, 1920, the date of approval of the Federal Water Power Act (41 Stat. 1063).
- (5) The 262.6 c. f. s. of water which the applicant licensee proposes to acquire is a part of the 19,725 c. f. s. of water which the licensee was authorized by the license issued March 2, 1921, as amended. to divert through Project No. 16.

The Commission finds that:

- (6) Amendment of the license as requested should only be authorized if the water rights which the applicant licensee proposes to acquire from Buffalo Niagara are valid rights which may be recognized under the Federal Power Act.
- (7) The facts necessary to determine the validity of the water rights in question are presented in sufficient detail in the application filed February 17, 1947, together with the exhibits attached thereto, as supplemented March 20, 1947.
- (8) Opportunity should be afforded the licensee to support the validity of said water rights and the authority of the Commission to approve the license amendment requested.

It is ordered, That:
(9) The question of the validity of the water rights referred to above and the authority of the Federal Power Commission to approve the license amend-

ment requested are hereby set for oral argument before the Commission commencing at 10 o'clock a. m. on Friday, April 25, 1947, in the Commission's Hearing Room, 12th floor, Hurley-Wright Building, 1800 Pennsylvania Avenue, NW., Washington, D. C.

Date of issuance: April 9, 1947.

By the Commission.

FIRST IOWA HYDRO-ELECTRIC COOPERATIVE

ORDER SETTING ORAL ARGUMENT

This proceeding was initiated in 1941 when First Iowa Hydro-Electric Cooperative filed an application for license under the Federal Power Act to authorize the construction of a hydroelectric power development on Cedar River in the State of Iowa. Several hearings have been held in this matter and after various intermediate steps not here important the Trial Examiner who presided at the hearings submitted his report which waso served on the parties to this proceeding on March 5, 1947. On March 24, 1947, the applicant and the State of Iowa, intervenor herein, filed their respective exceptions and objections to the findings and conclusions and the recommended decision contained in the Trial Examiner's Report, and both parties requested an opportunity to present oral argument before the Commission on the issues raised by their exceptions.

As a matter of incidental recitation the Trial Examiner included two findings relating to the question of the Commission's jurisdiction over the project although the project has already been determined finally to be subject to the jurisdiction of the Commission.

The Commission, having considered the project record and the requests for oral argument, finds that:

It is appropriate for the purposes of administration of the Federal Power Act that an opportunity for oral argument before the Commission be afforded as hereinafter provided; and

It is ordered, That:

Oral argument before the Commission on the issues raised by the aforesaid exceptions to the Trial Examiner's Report, other than on the issue of the Commission's jurisdiction, is hereby set to commence at 10:00 a.m. on May 9, 1947, in the Commission's Hearing Room, 1800 Pennsylvania Avenue, N. W., Washington, D. C.

Date of issuance: April 8, 1947.
